In accounting, gross profit, gross margin, sales profit, or credit sales is the difference between revenue and the cost of making a product or providing a service, before deducting overheads, payroll, taxation, and interest payments. This is different from operating profit (earnings before interest and taxes). Gross margin is the term normally used in the U.S., while gross profit is the more ...

Gross profit - Wikipedia

Not only is the Institute meeting a felt need by students but it has also achieved recognition by employers, many of whom sponsor their employees as students; and by the colleges, where the Institute's examinations have been incorporated into business studies training programmes as a first step towards a more advanced qualification.

Syllabi - ICSAZ

In business and accounting, net income (also total comprehensive income, net earnings, net profit, bottom line, sales profit, or credit sales) is an entity's income minus cost of goods sold, expenses and taxes for an accounting period. It is computed as the residual of all revenues and gains over all expenses and losses for the period, and has also been defined as the net increase in ...
